

Mega Lopunny / Mew / Froslass: locals cheat sheet

First locals, 26 Sep 2026. Built from games 12 to 25 and playbook rules 32 to 51. Record: 10 wins, 4 losses.

The five anchors

1. **Who moves up this turn, and how?** Evolve on the Bench first. A promotion after a knock out does not count.
2. **Pick the attacker by type.** Fighting: Froslass + Mew, Lopunny stays in the deck. Fire: Froslass itself. Darkness: never Mew. Everything else: Lopunny.
3. **Count prizes in Megs.** No damaged Mega in front of their cheapest attack. They are on 3 or fewer: Megs stay back unless you win.
4. **Count their hand.** Mew 4 into Lucario and Dragapult. Froslass 4 into Charizard, 7 into Lucario.
5. **Name their deck before you build your Bench.** Against spread and snipe, spare Basics stay in hand.

Gale Thrust: the +170 (230 total)

Needs the attacker to go Bench to Active **during your turn**.

Sources:

- **Air Balloon** retreat (2 in list)
- **Plain retreat** (Lopunny: 1 Energy; Mew: free)
- **AZ's Tranquility** (switch + heal 80)
- **Active Dudunsparce, Run Away Draw:** draw 3, it shuffles away, your promotion counts (G16)

Does not count: promotion after your Active is KO'd. A Buneary evolved in the Active Spot (60, G13).

No move? **Spiky Hopper** [CC] 160, ignores effects on their Active.

Mew ex (Memory Helix)

- Copies a **benched** Pokémon's attack. Damage is **Psychic**.
- **Bubbly Water / Legacy** on Mew: copy Gale Thrust or Resentful Refrain.
- **Mist** on Mew: Gale Thrust only.
- Copied Gale Thrust gets +170 only if **Mew** moved.
- 160 HP, 2 prizes, resists Fighting (Aura Jab = 100).
- **Not vs Darkness (weak). Not vs Fire (loses the Water x2). Dies to anything 160+.**

Turn 1 setup

- Dunsparce Active if possible, Buneary + Energy on the Bench, two of each line.
- **Fan Call only works on your first turn.**
- Read their opener before Poffin / Fan Call picks.
- **Salvatore** is a tutor: Mega (no Ability) straight onto a Buneary or Snorunt. Never dead.
- Go first.

Prize discipline

- Megs = 3, Mew / Clefairy = 2, rest = 1.
- Pick the attacker that is **still there after their reply** (rule 37).
- Nothing survives? Send the **cheapest body** that still KOs (rule 50, G24).
- **Wally's** before your attach: the Energy comes back to hand. Heal before the Mega is in range, not after.
- **Legacy:** 1 fewer prize, once. Best home: a Pokémon sure to die (G25 Snorunt = 0 prizes).
- Supporter every turn.
- Kill prize-scaling or loaded attackers **on their Bench** (Zygarde, Zekrom).

Resentful Refrain: hand thresholds

Target	Froslass	Mew copy
Mega Lucario ex (340)	7	4 (x2)
Dragapult ex (320), Clefairy in play	7	4 (x2)
Mega Charizard X (360, weak Water)	4 (x2)	8
Oricorio ex (190, weak Water)	2	4
Greninja ex (310, weak Psychic)	7	4 (x2)
Fezandipiti ex (210)	5	5
Garchomp ex (330 + Power Weight)	8 to 9	8 to 9

50 per card. Count at the **end of their turn**. Hand too small? Gale Thrust 230 (Mew copy into Lucario: 460).

Froslass test: can they shrink their hand without hurting themselves? Yes (Slowking) = Froslass bad. No (Alakazam, Lucario) = Froslass great.

Paper table habits

- Say it out loud: "Mew moved this turn, +170."
- Remind them when Legacy is KO'd: 1 fewer prize.
- Check prizes for Wally's and Megs early.
- Note key turns per game for coaching after.

Matchups

Deck (how to spot it)	Record	Plan
Mega Lucario ex Solrock / Lunatone / Riolu	3W 1L Grant: auto-loss	Frosllass attacks, Lopunny stays in the deck (Mega Brave = 540 on it). Frosllass 310 survives Mega Brave 270; Mega Brave can't go twice in a row, so Wally's resets. Their out: 2x Premium Power Pro = 330. Boss Riolu before it evolves, and Fezandipiti (5 cards). Mew closes: Refrain at 4 cards, or Gale Thrust 460. Gravity Mountain is dead vs you, so Battle Cage is the Ultra Ball discard . Crushing Hammer is live.
Lucario / Mega Zygarde	W G25	Aura Jab loads 3 Fighting onto a benched Zygarde; at 5 Energy + Core Memory it Nullifying Zeros your board. Boss the loaded Zygarde over the Lucario in front. Mew in front (Aura Jab = 100), Hammer the Lucario that replies.
Cynthia's Garchomp ex Cynthia's Roselia / Gible T1	L G24 winnable	Same as Lucario: Frosllass + Mew, no Buneary on the Bench . Roserade is the key card (+30 each). 3 Roserade: Dragonslice 130 = 260 into anything Colorless; Draconic Buster 350 kills everything you own , so the Buster turn goes to Mew (2 prizes, not 3) . Buster discards both Energy, Frosllass survives the next swing. Crushing Hammer is great.
Dragapult Dreepy / Budew	untested G13, G19 not real tests	Battle Cage down before the first Phantom Dive (blocks bench counters, Adrena-Brain, Cursed Blast; also bumps Watchtower). Lillie's Clefairy ex in play = Dragons weak Psychic: Mew Refrain at 4 cards = 400, Mew Gale Thrust = 460. They snipe Dunsparce, Watchtower off Dudunsparce / Fan Rotom. Budew lock: attach Air Balloon the turn before ; Active Dudunsparce, AZ's, paid retreat still work.
Alakazam	W G14	Frosllass is the attacker; they can't empty their hand without weakening Powerful Hand. Mist on your attacker blocks Powerful Hand . Expect Enhanced Hammer. Spiky Hopper 160 also one-shots a 140 HP Alakazam.
Marnie's Grimmsnarl ex Darkness	L G16 5-6 winnable	Shadow Bullet 180 + 30 snipe: two-shots Megs, one-shots Mew. Mew stays in the deck . Go first, Frosllass early while their hand is big, Battle Cage at once vs Munkidori, alternate two Lopunny, Wally's / AZ's before a Mega reaches 220 (Moltres 110 finishes it). Meowth ex 170: Boss + Gale Thrust = 2 prizes. Crushing Hammer dead (Punk Up).
Slowking / Kyurem Latias ex, Boomerang Energy	L G17 4-6 winnable	Trifrost: 110 to 3 of yours every turn. Cage and Mist do NOT stop it . Nothing on board at 110 HP or less remaining; bench only what attacks this turn or next; never rebuild into the same wipe. Lopunny is the attacker (Frosllass bad, they play on 2 cards). Boss Latias ex : Gale Thrust 230 kills it for 2 and strands Slowking (Retreat 3). Hammers dead.
Mega Charizard X ex Cinderace, Oricorio ex	W G23	Frosllass attacks itself (Water x2): 4 cards one-shots Charizard, 2 cards Oricorio. Mew dies to their 180 floor: keep Mew in hand . Early target: the Charmander with the Turbo Flare Energy. Their Bench is full of 2-prize ex: Boss + Gale Thrust.
Lightning / Eelektrik Manectric, Zekrom ex	W G20 6-1	Flash Ray blanks damage from Basics (Mew too): attack with a Stage 1 (Frosllass, Lopunny, Dudunsparce). Boss Zekrom ex early , Voltage Burst grows with prizes you took. Split Bomb goes through Cage. Hammers worse than dead (Dynamotor).
Greninja ex	W G22 4-0	Shinobi Blade 170 = 340 on Lopunny (one-shot). Mew resists (140, survives) and copies Refrain into their Psychic Weakness. Their Grand Tree works for you too.
Crustle	Grant: auto-win	Untested by you. Spiky Hopper ignores effects on their Active; expect Spiky and Mist Energy.
Raging Bolt	Grant: unfavorable	Untested. Play fast, take the prize race early.

Blooper reel: don't repeat these

- **G24**: Frosllass took a 1-prize Gabite and died for 3. Mew was in hand with Bubbly Water.
- **G24**: Buneary benched T1 vs a Fighting deck = their last prize.
- **G23**: Mew hit Charizard, died to 180 with the only Bubbly Water. Frosllass would have done 900.
- **G16**: Battle Cage discarded with Munkidori powered. Discard the 3rd Buneary instead.
- **G13**: Buneary evolved Active, hit for 60.
- **G12**: damaged Lopunny attacked into Aura Jab range, gave up 3.

Card-fact quick checks

- **Bubbly Water** = {W} on any Pokémon. **Legacy** = any type, also on Frosllass.
- **Battle Cage** blocks counters placed on your Bench (Abilities, attack effects), **not** attack damage or snipes.
- **Mist** blocks effects of their attacks on that Pokémon (and placing counters).
- **Budew item lock**: attached Air Balloon still works.
- **Dudunsparce** shuffles itself and its damage away: recycle the **damaged** one (rule 47).
- **Hilda**: Mega Lopunny ex + an Energy in one card.
